

## **DSI Image file requirements**

Please use the file requirements listed below for your files when uploading to Digital Silver Imaging, LLC.

Format	16 bit Tiff in Adobe 1998 colorspace or quality level 10 JPEG, Adobe RGB 1998 colorspace Note: even though we want RGB colorspace, your files should be in B&W.
File size	up to 2 GB for web upload no limit if delivered in CD, DVD, memory card, flash drive, external hard drive
Resolution	400 ppi
Print size	size image to print size you require

Digital Silver Imaging uses YouSendIt.com to enable you to easily upload image files as large as 2 GB. Just try to do that with email! Anyone can upload files. You do not need a YouSendIt account to send us files.

To upload your image files go to **[digitalsilverimaging.com](http://digitalsilverimaging.com)** and click on "Upload" in the banner of the web page.
